Projects

SVU MCA Portal

svu-mca-alumni-portal.vercel.app • December 2025 – January 2026

- Developed a Web Portal for SVU MCA Department using MERN Stack.
- It comprises of current Students and Alumni Registration, Authentication, Authorization and Security.
- This full-stack application facilitates mentorship, job opportunities, event management, and real-time networking.

Property Pulse.

property-pulse-vasu.vercel.app/ • February 2024 – March 2024

- A Property rental Web Application developed using Next.js 14 and Tailwind CSS.
- Implemented CRUD operations for Properties, Used NextAuth for Google Authentication.
- Used React Server Components and Client Components for faster Page reload, data fetching and caching and MongoDB for storing the data.

Fast React Pizza.Co

vasu-fast-react-pizza-co.netlify.app/ • June 2023 – July 2023

- It's a Pizza Ordering Web Application, where users can order one or more pizzas from a menu. Requires no user accounts and no login: users just input their names before using the app
- The pizza menu can change, so it should be loaded from an API. Users can add multiple pizzas to a cart before ordering done
- Ordering requires just the user's name, phone number, and address, If possible, GPS location should also be provided, to make delivery easier
- User's can mark their order as "priority" for an additional 20% of the cart price, Orders are made by sending a POST request with the order data (user data + selected pizzas) to the API
