Career Objective

Frontend Engineer specializing in React.js and Next.js with experience building scalable full-stack applications featuring authentication, real-time communication, and performance optimization. Passionate about creating fast, responsive user experiences and contributing to modern engineering teams.

Projects & Experience

Roots and Heritage

www.rootsandheritage.app | June 2026 – Present

- Developed a full-stack SaaS-ready cultural heritage platform using **Next.js, React.js, Node.js, Express.js, and MongoDB**, enabling users to preserve, explore, and share family history, genealogy, and cultural records.
- Implemented **secure JWT authentication, role-based access control, responsive UI, and RESTful APIs**, delivering a scalable, high-performance user experience across desktop and mobile devices.
- Engineered reusable components, optimized data fetching and media handling, and deployed the application on **Vercel**, improving maintainability, performance, and SEO for a production-ready web platform.

SVU MCA Portal

svu-mca-alumni-portal.vercel.app | December 2025 – January 2026

- Built a full-stack **MERN web portal** supporting 500+ **students** and **alumni**, enabling mentorship, job postings, and event management.
- Implemented secure authentication and role-based authorization, ensuring **100% protected access to user-specific features**.
- Designed and optimized MongoDB schemas and backend REST APIs, reducing query response by **~30%**.
- Improved overall system performance and responsiveness by **25-35%** through backend optimization.

CampusBookEx

campus-book-exchange.vercel.app | November 2025 – December 2025

- Developed a full-stack MERN platform supporting **50+ active book listings**, enabling peer-to-peer academic book exchange.
- Implemented JWT-based authentication and protected routes, securing **100% of user transactions and sessions**.
- Built real-time chat and notifications using Socket.io with **<1 second latency**, improving user engagement by **~35%**.
- Optimized frontend data fetching using TanStack Query, reducing redundant API calls by **~40%**.

Education

MCA – Master of Computer Applications (2024 – 2026)

Sri Venkateswara University, Tirupati

BSc - Computer Science (2019 – 2022) | CGPA: 7.24

SBVR Degree College, Badvel

Courses

Full Stack JavaScript Bootcamp 2.0

iNeuron.ai • 2023

- Gained hands-on experience in Full Stack JavaScript Web Development

Namaste React

NamasteDev.com • 2023

- Advanced React concepts, hooks, Redux, performance optimization.

Technical Skills

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Redux, React Router

Backend: Node.js, Express.js, REST API Development

Database: MongoDB, Mongoose, AWS Basics

Tools & Platforms: Git, GitHub, Vercel, Netlify, Cloudinary, Socket.io, Agile methodology, Cross-browser optimization

Core Concepts: JWT Authentication, Role-based Access, State Management, Responsive Design, Performance Optimization
